MORMON COLONIES ESCAPE EPIDEMIC

El Paso, Texas, June 12.—An epidemic of smallpox has been raging in the district of Ozumbia, northern Chihuahua, Mexico, for several months and the people have been dying by the hundreds. This has been known for sometime, but the extent of the epidemic was not known until today, when the people made an appeal to the government at Mexico City for medical officers and soliders to enforce quarantine laws.

It was stated in the appeal that the civil register of Ozumbia shows 600 deaths from the disease in six months.

The Mormon colonies are located in this region, but not a single Mormon has died, showing the results of proper treatment and sanitation, for many Mormons have had the disease during the epidemic.

SUMMER WHITE HOUSE

Beverly Mass., June 12.-The summe White House is swept and dusted; the broad lawns are green, the elms have not yet felt the blight of the gypsy moth, and all nature smiles on Woodberry Point where President Taft and his family will again seek rest and health during the coming heated term. The Taft family will arrive on the 28rd. Staid Beverly people are somewhat excited also at the prospect of having Col. Roosevelt among them for a few days next month as a guest of his son-in-law, Congressman Nicholas Longworth of Ohio. The Longworth summer cottage occupies a point of land near that on which the Taft estate is located.

READY FOR PRESIDENT | QUESTION THAT CONFRONTS UNIVERSITY GRADUATES

Princeton, N. J., June 12.—Dr. Woodrow Wilson, president of Princeton university, delivered the baccalaureate address to the graduating class in Alexander hall today. He said in part:

"The real question for every one of you today is what sort of a life has the university bred in you. Universities are of an unserviceable sort when men come and buy knowledge in them, purchase what store of information men come and buy knowings in them, purchase what store of information they may need for their business as one would buy commodities in a mart, as if the learning was merchandise and you may fairly enough judge a university by the love men have for it or the indifference."
